I use asyncTasks for a main thread and then I have a second thread that manages the asyncTasks list and when the user click on a button I want to start one of the asyncTasks. This is for the moment a conceptual view of my plans: public class AwaitableManager { private AsyncTask task; private List waitingForTask; public void start(AsynTask task){ this.task = task; this.waitingForTask.add(task); } public void cancel(){ this.waitingForTask.remove(task); } public void setActivity(Activity

Technical Support Desk: Free 30 Day Trial: Korean Leader Kim Jong Un (C) attends a banquet celebrating the 75th anniversary of the state's ruling party on October 6, 2016 in this undated photo released by North Korea's Korean Central News Agency (KCNA) in Pyongyang October 6, 2016. REUTERS/KCNA SEOUL (Reuters) - North Korea's leader, Kim Jong Un, hosted a party on Tuesday to mark the anniversary of his country's ruling party, which he used to justify his country's nuclear weapons development program, South Korea's Yonhap News Agency said. South Korea's National Intelligence Service released a statement on Monday saying that Kim Jong Un hosted a "mass banquet" attended by at least 2,000 people in Pyongyang to mark the anniversary of the anniversary of the ruling Workers' Party, which is a way for him to gain public support. The party also called on the international community to strengthen sanctions against North Korea, according to Yonhap. The report was confirmed by a source in South Korea's intelligence community. Kim Jong Un will not attend a major party marking the anniversary of the ruling Workers' Party for fear of being exposed by a lack of attendance, South Korea's government sources told Reuters on Wednesday. Many North Korea watchers believe Kim will launch his third nuclear test this year, possibly in the coming weeks.yated DAA reports an increased risk of thrombotic events by 50%, which should be used as a caveat when a patient is to be started on a DAA with or

What's New in the?

The PST is a special format that is used by several email clients to store all the data you need to access your email accounts.
